

model 1409

Wall-Mounted Drinking Fountain

FEATURES & BENEFITS

BUBBLER HEAD

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

INTEGRATED TRAP

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

QUALITY CONTROL

Fountain is pre-built and fully water and pressure tested to ensure no leaks and proper function for reduced installation time and added peace of mind.

CONSTRUCTION

Cast aluminum bowl with integral mounting brackets along with a powder-coated finish combine for a strong long lasting product, while a vandal-resistant bottom plate discourages unwanted access.

FINISH

Gleaming white powder-coated finish is attractive and functional for any situation, and the soft rounded corners provide added safety and peace of mind.

HIGH CAPACITY BASIN

Combined low profile design and the use of three bubblers supply the needs of many, which is perfect for schools and other high traffic areas.

PUSH BUTTON

With its patented (Pat. # 6,981,692) stainless steel, push-button activated valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers 100% lead free waterways. The valve works at an operating pressure range of 30 to 90 psi (2.1 to 6.2 bar).

OPTIONS

- ❑ Filter: Model 6426, 12" x 2" (30.5 x 5.1 cm), in-line lead removal element that reduces lead from incoming water supply.
- ❑ Chiller: Model HCR8, 8 gph (30.3 L) remote water chiller provides instantaneous cooling to meet a continuous demand for chilled water.

SPECIFICATIONS

Model 1409 is a three bubbler wall mounted, wheel chair accessible drinking fountain made of white powder-coated cast aluminum. Unit shall include recessed push-button stainless steel valves with front-accessible flow adjustments and cartridge and strainer access, 100% lead free waterways, polished chrome-plated brass bubbler heads locked to the bowl and solid chrome-plated brass waste strainer. Unit shall also include a vandal-resistant bottom plate and a 1-1/2" NPT trap.

APPLICATIONS

Perfect for schools, sports venues, shopping malls and other high traffic areas where mounting height and durability matter. The 1409 offers a solution for wheelchair access while providing robust vandal-resistance. When installed at the appropriate height, the heavy-duty, yet lightweight design negates the need for installation reinforcement generally required with significantly heavier cast iron fountains. The vandal-resistant bottom plate and waste strainer also bring added peace-of-mind.

Haws manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006).
