Barrier-Free Steel Pedestal Fountain

FEATURES & BENEFITS

CONSTRUCTION

Barrier-free design made of heavy-duty 11 gauge galvanized steel with green powder-coat finish. Unit has a high-polished stainless steel basin that resists stains and corrosion, recessed push-button, welded bubbler guard, and vandal-resistant bottom plate.

DRAIN CLEAN-OUT

Top-down access to the drain allows the fountain to be cleaned without taking the unit apart, good for outdoor settings with drain-clogging sediment such as leaves, garbage, and other debris.

BARRIER-FREE

Barrier-free capabilities combined with its ease of use allows for a number of installation location possibilities.

PUSH BUTTON VALVE

The push-button activated valve assembly allows for front access stream adjustment as well as cartridge and strainer access. The valve works at an operating pressure range of 30 to 90 psi (2.1 to 6.2 bar).
