

FEATURES & BENEFITS

EYE/FACE WASH HEAD

AXION® MSR eye/face wash head uses an inverted directional laminar flow to sweep contaminants away from the vulnerable nasal cavity.

VALVE

Valve is designed so full continuous flow occurs with the simple squeeze of a lever providing an easy start to the irrigation process.

HOSE

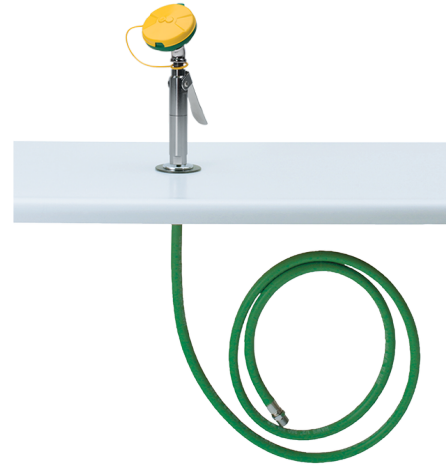

The 8' (243.8 cm) swivel hose delivers a wide coverage area and is pressure rated at 250 psi (17.2 bar) to further optimize durability.

MOUNTING

Counter-mounted design provides a practical and space efficient piece of emergency equipment.

SAFETY

8" x 10-3/4" (20.3 x 27.3 cm) universal emergency sign make the unit easily detected in an emergency. Test card to record weekly checks helps maintain the unit's best working quality.
